Hypnos – the Greek God of sleep.

Few of us would dispute the benefits and importance of a perfect nights sleep. Our fast moving modern world places many demands on our bodies and minds – at the end of a busy day we all need a haven of rest, a sanctuary for our dreams.

Through five generations Hypnos has created a heritage of bed making excellence that delivers sumptuous luxury and unparalleled comfort. Our passion for creating the very best sanctuary for sleep, flows from the combination of the finest natural materials, modern methodology and a sound belief in hand crafted traditional values.

Based in Buckinghamshire, we have been hand crafting the finest quality beds for over a hundred years, and we remain a family owned British company.

The current Chairman, Peter Keen, is the great grandson of the original founder. Our philosophy of achieving the highest standards of excellence is reflected in the countless nights of comfortable sleep enjoyed by many thousands of people at home and worldwide. Hypnos beds can be found in the finest homes and hotels – we remain the preferred choice of interior furnishers.
Recognising that everyone has individual needs and preferences – comfort, design and style, practical considerations – the Regency collection embraces all of these values in a way that offers total freedom of choice.

Individually hand made mattresses that represent the very best Hypnos craftsmanship to achieve your comfort aspiration are partnered with pocket sprung divans tailored in a choice of fabrics to reflect modern and classic tastes.

Personal style and expression – comfort without compromise.

St James

A name synonymous with opulence. An expression of design, not merely a bed, a sleep sanctuary with style.

We all deserve a little bit of extravagance every day, and when it comes to sleep it’s even more important to immerse yourself in unspoiled luxury. Isn’t it time you turned every night into something special and succumb to the temptation of St James?

A bed is a haven of peace and tranquillity, a refuge from the rigours of the day, and a quiet place of contemplation.

Illustrated on these pages is the 180 x 200cm Hypnos Regency St James mattress on deep deluxe divans with skirt. The Elegance headboard and divans are finished in narrow cord jacquard black sienna 9743.

Sleep – the restorer of the soul, the life-giver and reviver.
Our extensive experience in pocket spring technology has produced many combinations of spring geometry. Defining new levels of individual comfort, your choice of spring tension ensures your personal level of support. Regency mattress borders receive the benefits of genuine hand stitching. This creates additional support, thus eliminating ‘roll off’ effect and increasing longevity.

The Regency collection offers a breadth of comfort and support levels to suit your personal preference. With a choice of regular and firmer spring tensions in each model we highlight the following general guidelines:
