Quality Craftsmanship

The Sutcliffe Heritage

Sutcliffe furniture introduces you to Trafalgar Collections, which comprises a composite range of over fifty pieces of furniture for both the living and dining room.

The collections are made with solid wood timbers and real Teak veneers. The veneers have beautiful cathedral arches which are incorporated in the door panels and surface tops. Each piece of Trafalgar is truly unique and with its golden timbers, Trafalgar creates a fabulous, warm and light finished piece of furniture; an asset to any home.

Each piece of Trafalgar has the veneers hand selected to match throughout each piece of furniture, as far as is practicable when dealing with a natural product.

The Trafalgar collection comes in a choice of three finishes: Trafalgar has a natural Teak finish, Windsor is a middle shade which is a warmer and darker finish allowing the fabulous wood grain to show through, and Hampton is the darkest of the three, exuding hues of Mahogany. All come with a mid-sheen lacquered finish to enhance the stunning grain in the timbers. All of the furniture shown throughout the brochure can be purchased in any of the three wood finishes of your choice.

QUALITY AS STANDARD

Sutcliffe prides itself on technical specifications, making each piece of furniture for you with care and skill.

Mortice and Tenon joints are used in the dining chairs and carvers. The mortice is utilised in the length of the chair back which assures longevity in practical use.

All Trafalgar drawers incorporate the self-close mechanism and have an intricate dovetail joint detail, allowing strength and a smooth opening and closing function.

What sets Trafalgar apart is the solid wood, shaped, lipped edge on all of its cabinets, making it a tactile piece of furniture with no harsh edges. This is reflected in the canted top and crafted, angled edges, creating depth to the sideboards and display base tops.

With attention to detail, all Trafalgar is completed with the neatly turned wood door handle which is standard on the natural teak finish. An option of a pewter trim is available on the Trafalgar, whilst the Windsor and Hampton have the pewter trim as the standard finish and the turned wood as an option.

All glass in Trafalgar doors has a bevelled edge.

Mitring is a complicated detail that exudes a quality finish. Trafalgar uses this detail on its drawer and door fronts on all of its cabinets where the solid timbers meet, framing the stunning teak veneers.

All Trafalgar Units have the Trafalgar signature softly carved, shaped panel at the top of each door panel.

Trafalgar Display

Most homes today need storage requirements. Trafalgar has considered those needs and has a comprehensive choice of full display units and sideboards in a variety of widths, from utilising corner space to a full four door display unit or sideboard.

A matching mirror (with bevelled glass that can be hung both portrait and landscape) above the sideboards keeps the whole display cohesive. Display tops all come with a mirror back option (M). The 819 and 829 corner unit come with mirrors as standard. All glass doors have a bevelled edge. All sideboards and lower bases of the display units come with the signature canted top. All display units have down-lighting which is environmentally friendly low voltage and comes with a foot switch for easy illumination.

When selecting an option with a mirrored back, add an 'M' to the end of the code; i.e. 833M.

Buying Guide

Absolutely everything in the Trafalgar range is also available in the darker Windsor and Hampton veneers. Windsor is a warm but darker finish which allows the natural grain in the timbers to show, whilst Hampton is finished with rich mahogany hues.

It's so easy to order from Trafalgar, Windsor and Hampton Collections. Every item in the Trafalgar range has it's own unique code.

To order from the Windsor range:

1. Identify the Trafalgar product code
2. Simply add a 6 to the start of the code

To order from the Hampton range:

1. Identify the Trafalgar product code
2. Simply add a 3 to the start of the code

Care of your furniture

Trafalgar furniture is very easy to care for and requires no artificial chemical sprays or polishes. Regularly dust with a soft clean duster, and an occasional wipe with a chamois leather rinsed in a mild detergent solution, then buffed up with a duster, always following the grain in the wood to obtain maximum care.

DO NOT USE PROPRIETARY SPRAYS AND POLISHES.

Sutcliffe is continually evolving its furniture and may at times reserve the right to make changes to the range when necessary.

All measurements are approximate.
